

## ScienceWorks Field Trip --- Grouping Worksheet for Large Groups

In order to save time while at the Museum, please organize your students into groups before your visit. Chaperones (1 per 5 students) are needed both to supervise student groups and to participate in the learning! During your visit, half of the student groups will conduct explorations of specific exhibits while the other half attends a presentation in the theater. The groups will then switch. There will also be an Open Exploration time in which all students can explore as they wish.

Large school groups (*over 70 students*) should divide students into two groups: **Alpha** and **Beta**. Next, make team groupings of five to six students and assign a chaperone. Color coded **name tags** are a great way for your students, chaperones and our staff to get to know each other better and help everyone remember which group they are in. The worksheet below may help make this organization scheme clearer:
