

When you visit, remember to:

#1 - Be Safe

Walk from one place to another, follow instructor directions, and always stay with your group leader.

#2 - Be Respectful

Use inside voices, share exhibits with other visitors, treat equipment with care, and cooperate with your team.

#3 - Be Curious

Ask wild questions, push buttons, turn knobs, and try things for yourself! Read it, try it, learn it!

Enjoy your time at ScienceWorks!
